																	L

For:

☐ Evaluation

☐ Extractions

☐ Pathology

☐ Infection / Abscess

☐ Trauma

☐ Pain

☐ Expose / Bond

☐ Other \_\_\_\_\_

Notes: \_\_\_\_\_

Patients will NOT be sedated on the first visit. SEDATION / GENERAL ANESTHESIA REQUIRES AN INITIAL CONSULTATION.

For IV Sedation / General Anesthesia:

1. Sedated patients cannot drive home, so a separate driver must be present.
2. The driver must stay in the office / waiting room for the entire sedation visit.
3. The patient must have an EMPTY STOMACH for 8 hours, nothing by mouth - for safety, not even water.
4. Take all of your usual home medicines, at the usual times you take them - unless directed otherwise by the doctor.

Please bring the name of your primary care physician and a list of all current medications to your initial consultation.
